

WWEMA MEMBERSHIP

WWEMA is made up of many of the most prominent manufacturers in the industry, working together to shape the future of water and wastewater technology in the United States and abroad.

In an industry where regulations and legislation can either create new business opportunities or bring projects grinding to a halt, WWEMA is the *only* organization specifically representing the interests of today's technology providers.

For more than 100 years, WWEMA has kept its members informed and offered exclusive opportunities for education, networking and exposure, giving them a significant advantage over their competitors.
