

COMPANY

BOOTH

Sulzer Pumps/ABS USA

2362

Pumps, mixers and aerators.

Trojan Technologies

1420 and 1221

Ultraviolet water disinfection.

Val-Matic Valve and Mfg. Corp.

2067

Check, plug, butterfly, ball, air valves, and inflow preventers.

Water & Wastes Digest

907

Publication serving water supply and wastewater industry professionals.

Water Online

2953

Publication serving water supply and wastewater industry professionals.

WaterWorld

1840

Publication serving water supply and wastewater industry professionals.

Xylem Inc.

1443 and 3940

Products for every stage of the cycle of water—transporting, treating, testing, and analyzing.

WWEMA MEMBERSHIP

For more than 100 years, the world's most prominent water and wastewater technology providers have come together as members of WWEMA to shape the direction of our industry. Oftentimes these companies are competitors, but they join the association to form "one voice," to impact public policy in a way that no single company can achieve on its own.

In an industry where regulations and legislation can either create new business opportunities or bring projects grinding to a halt, WWEMA is the *only* organization specifically representing the interests of today's technology providers.

WWEMA keeps members informed and offers them exclusive opportunities for education, networking and exposure, giving them a significant advantage over their competitors.
